Location: boundaries\mosquito_ctrl

Description

This layer consists of mosquito control district boundaries for the Bay County Mosquito Control Program. The layer consists of polygon features only.

Source

This cover was created June 1999 by Bay County GIS staff. Linework from the existing coverages **county** and **roads** were used to create the district boundaries. Please see the documentation for the **county** and **roads** coverages for more information. The Mosquito Control Program provided the GIS staff with written descriptions (included below) and hand-drawn maps of the mosquito districts which were used in delineating the district boundaries. When we encountered problems with the written descriptions, Fred Wakefield of the Mosquito Control Program was contacted to clarify the problem.

This data is provided with the understanding that the conclusions drawn from such information are solely the responsibilities of the user. The GIS data is not a legal representation of the features depicted, and any assumption of the legal status of this data is hereby disclaimed. Errors or omissions should be reported to the Bay County GIS Division 850-784-6171.

Attribute Table Structure

Item Name	Width	Output	Type	Decimals
area	8	18	F	5
perimeter	8	18	F	5
mosq-dis#	4	5	B	-
mosq-dis-id	4	5	B	-
dist-num	5	5	I	-
mcd-name	30	30	C	-

Attributes

dist-num

The mosquito control district number.

mcd-name

The name of the mosquito control district number.
